Practical 4

Roll No.: T050	Name: Aashu Yadav
Class: TYIT	Batch: 1
Date of Assignment: 4/9/26	Date/Time of Submission: 4/9/26

Aim: Data Visualization using Tableau Dataset: netflix.csv

A. Connect and Understand the Data

- 1) Open Tableau and create a new workbook.
- 2) Connect the netflix.csv file to Tableau.

- 3) View all the columns in the dataset.

- 4) Identify which columns contain text, numbers, and dates.

Type	Field Name	Physical Table	Remote Field
ABC	Show Id	NetFlix - NetFlix.csv	show_id
ABC	Type	NetFlix - NetFlix.csv	type
ABC	Title	NetFlix - NetFlix.csv	title
ABC	Director	NetFlix - NetFlix.csv	director
ABC	Cast	NetFlix - NetFlix.csv	cast
ABC	Country	NetFlix - NetFlix.csv	country
ABC	Date Added	NetFlix - NetFlix.csv	date_added
#	Release Year	NetFlix - NetFlix.csv	release_year
ABC	Rating	NetFlix - NetFlix.csv	rating
#	Duration	NetFlix - NetFlix.csv	duration
ABC	Genres	NetFlix - NetFlix.csv	genres
ABC	Description	NetFlix - NetFlix.csv	description

- 4) Find the total number of records in the dataset.

Steps:

- Open a New Worksheet.
- Drag **NetFlix - NetFlix.csv (Count...)** to Text.
- The total number of records will be displayed.

- 5) Find the total number of Movies and TV Shows in the dataset.

Steps:

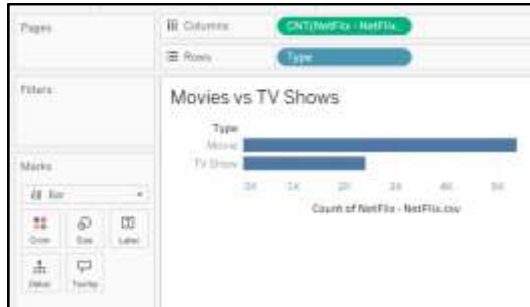

- Open a New Worksheet.
- Drag Type → Rows.
- Drag **NetFlix - NetFlix.csv (Count...)** → Text.
- The count of Movies and TV Shows will be displayed.

B. Create Different Visualizations

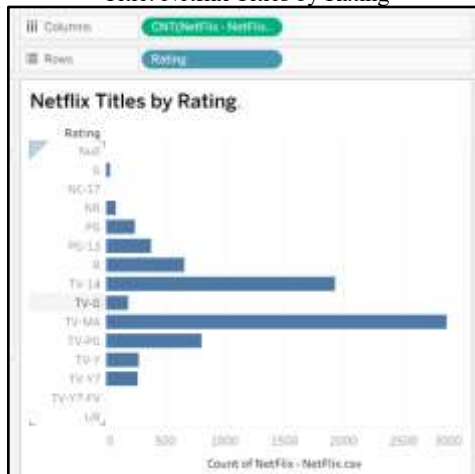

- 1) Create a bar chart to compare the number of Movies and TV Shows.

- New Worksheet.
- Type → Rows.
- Count → Columns.
- Select Bar from Marks.
- Title: Movies vs TV Shows

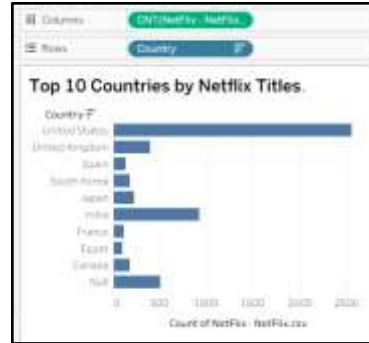

2) Create a bar chart to show the number of titles for each Rating.

- New Worksheet.
- Rating → Rows.
- Count → Columns.
- Marks → Bar.
- Title: Netflix Titles by Rating

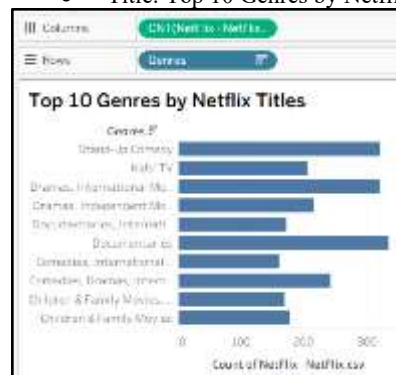

3) Create a horizontal bar chart to show the top 10 countries with the highest number of Netflix titles.

- New Worksheet.
- Country → Rows.
- Count → Columns.
- Drag Country → Filters.
- Open the Top tab.
- Select By field.
- Set Top 10 by Count.
- Click OK.
- Sort the chart in descending order.
- Title: Top 10 Countries by Netflix Titles

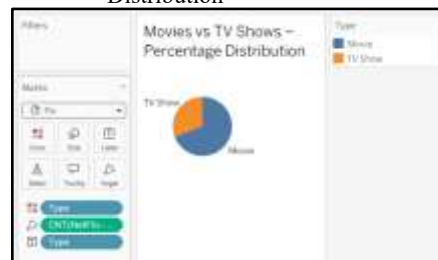

4) Create a bar chart to show the top 10 Genres with the highest number of titles.

- New Worksheet.
- Genres → Rows.
- Count → Columns.
- Drag Genres → Filters.
- Go to Top → By field.
- Select Top 10 by Count.
- Click OK.
- Sort in Descending order.
- Title: Top 10 Genres by Netflix Titles

5) Create a pie chart to show the percentage of Movies and TV Shows.

- New Worksheet.
- Type → Color.
- Count → Angle.
- Select Pie from Marks.
- Count → Label.
- Type → Label.
- Right-click Count → Quick Table Calculation → Percent of Total.
- Title: Movies vs TV Shows – Percentage Distribution

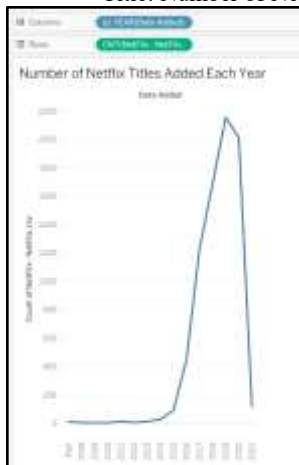

6) Create a pie chart to show the percentage of titles for different Ratings.

- New Worksheet.
- Rating → Color.
- Count → Angle.
- Marks → Pie.
- Count → Label.
- Rating → Label.
- Right-click Count → Quick Table Calculation → Percent of Total.
- Title: Netflix Titles by Rating – Percentage Distribution

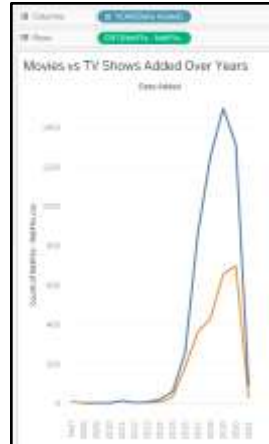

7) Create a line chart to show the number of Netflix titles added in each year.

- New Worksheet.
- Date Added → Columns.
- Click the Date Added pill dropdown.
- Select the upper Year option.
- Count → Rows.
- Marks → Line.
- Title: Number of Netflix Titles Added Each Year

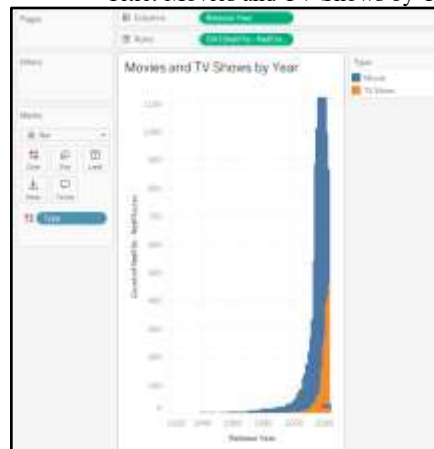

8) Create a line chart to compare the number of Movies and TV Shows added over the Years.

- New Worksheet.
- Date Added → Columns.
- Select Year.
- Count → Rows.
- Type → Color.
- Marks → Line.
- Title: Movies vs TV Shows Added Over Years

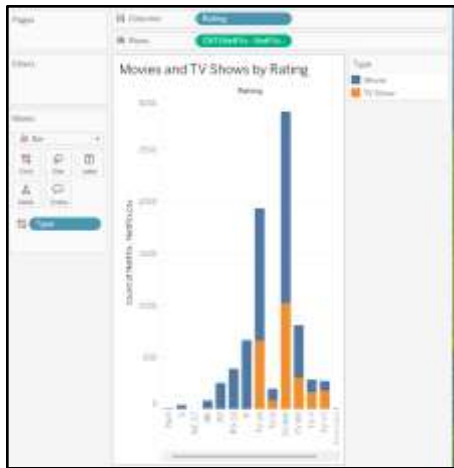

9) Create a stacked bar chart to compare Movies and TV Shows for each year.

- New Worksheet.
- Release Year → Columns.
- Count → Rows.
- Type → Color.
- Marks → Bar.
- Go to Analysis → Stack Marks → On.
- Title: Movies and TV Shows by Year

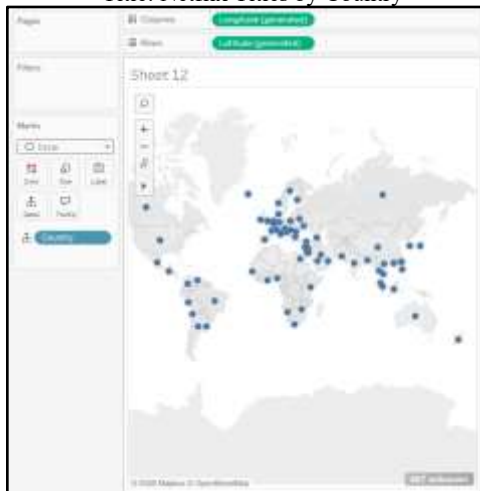

10) Create a stacked bar chart to compare Movies and TV Shows for different Ratings.

- New Worksheet.
- Rating → Columns.
- Count → Rows.
- Type → Color.
- Marks → Bar.
- Analysis → Stack Marks → On.
- Title: Movies and TV Shows by Rating

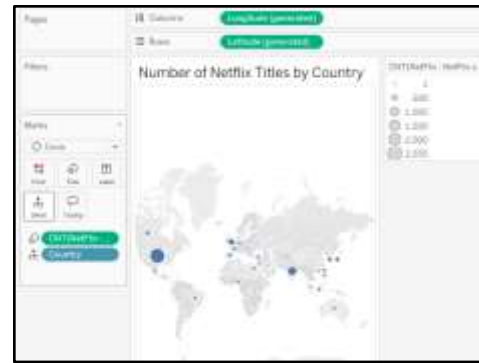

11) Create a map to show the countries from which Netflix titles are available.

- New Worksheet.
- Double-click Country or (drag Country → Detail)
- Tableau will automatically create a map.
- Title: Netflix Titles by Country

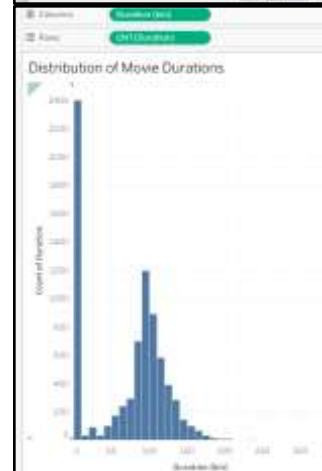

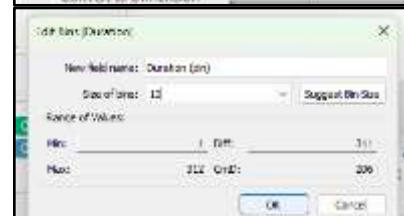

12) Use the map to show the number of Netflix titles for each country.

- New Worksheet.
- Double-click Country.
- Drag Count → Size and Drag Count → Color.
- The size/color of the marks will represent the number of titles.
- Title: Number of Netflix Titles by Country

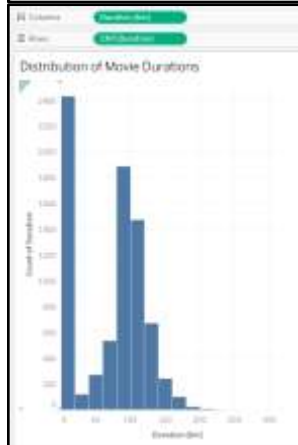

13) Create a histogram to show the distribution of Movie durations.

- New Worksheet.
- Right-click Duration.
- Select Create → Bins.
- Set the bin size and Click OK.
- Drag Duration (bin) → Columns and Drag Duration → Rows.
- Marks → Bar.
- Title: Distribution of Movie Durations

14) Change the bin size of the histogram and observe how the chart changes.

- (In 13) Right-click Duration (bin).
- Select Edit.
- Change the bin size, for example 20 → 30.
- Click OK.
- Observation: When the bin size is increased, the number of bars decreases and each bar represents a wider duration range.

C. Apply Filters

1) Add a Type filter to view only Movies or only TV Shows.

- Open a worksheet.
- Drag Type → Filters.
- Keep All selected and Click OK.
- Right-click the Type filter → Show Filter.
- Select Movie or TV Show to test the filter.

2) Add a Country filter to view titles from a selected country.

- New Worksheet.
- Country → Rows , Count → Columns , Country → Filters & Select All → OK.
- Right-click Country filter → Show Filter.
- Select a country such as India to test it.

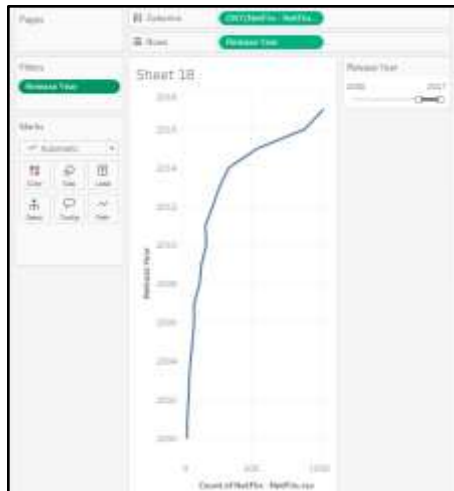

3) Add a Rating filter to view titles with a selected Rating.

- New Worksheet.
- Rating → Rows, Count → Columns, Rating → Filters & Select All → OK.
- Right-click Rating filter → Show Filter.
- Select a rating to test the filter.

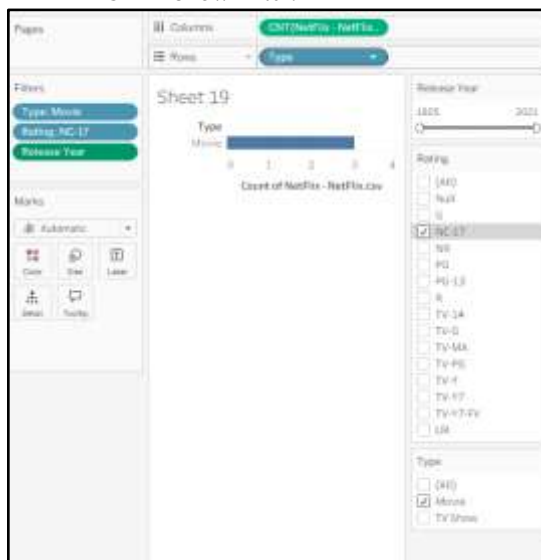

4) Add a Year filter to view titles from a selected year.

- New Worksheet.
- Release Year → Rows , Count → Columns, Release Year → Filters.
- In the Filter window, keep Range of Values selected & Click OK.
- Right-click Release Year filter → Show Filter.
- Use the year range slider to filter the data.

5) Use two or more filters together and observe how the charts change.

- New Worksheet.
- Type → Rows.
- Count → Columns.
- Add Type → Filters → All → OK → Show Filter.
- Add Rating → Filters → All → OK → Show Filter.
- Add Release Year → Filters → All/full range → OK → Show Filter.

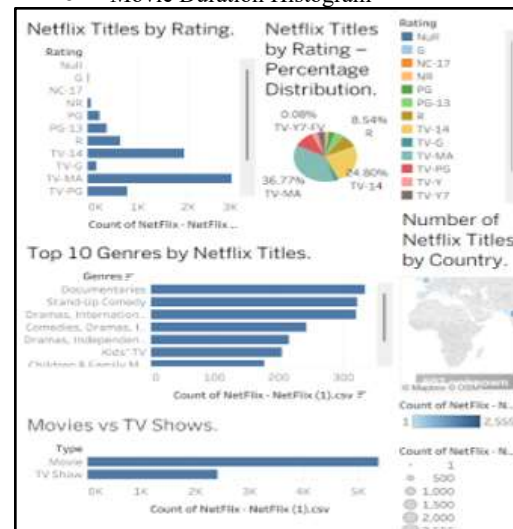

D. Create a Dashboard

- 1) Create a new Tableau Dashboard.
- 2) Add the charts created in the previous steps to the dashboard.

* Add your important charts one by one.

You can add:

- Movies vs TV Shows
- Top 10 Countries
- Top 10 Genres
- Titles by Rating
- Titles Added Each Year
- Movies vs TV Shows Added Over Years
- Country Map
- Movie Duration Histogram

3) Arrange the charts properly so that they are easy to understand.

- Drag each chart to the required position.
- Resize the charts by dragging their edges.
- Keep the charts properly arranged so that all important information is visible.
- Avoid overlapping charts.

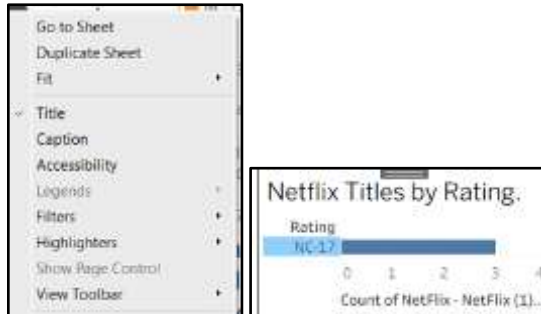

4) Add filters to make the dashboard interactive.

- Open the Dashboard.
- Click the chart's ▼ menu.
- Select Filters.
- Add Type, Country, Rating, and Release Year filters.

5) Give a suitable title to the dashboard.

- Double-click Add a Title.
- Enter: Netflix Data Visualization Dashboard.
- Click OK.

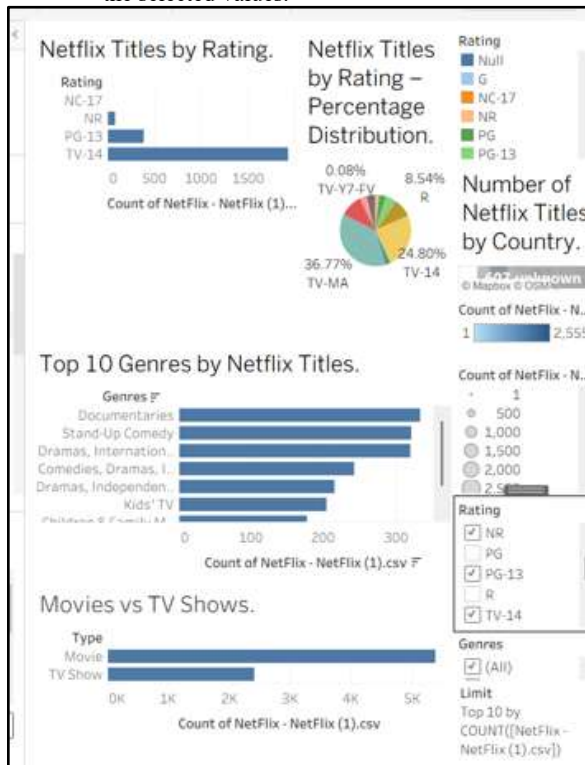

6) Add suitable titles and labels to the charts.

- Open each worksheet.
- Give a suitable title.
- To show numbers: Marks → Label → Show Mark Labels.

7) Select different filter values and observe how the dashboard changes.

- Select different values in the filters.
- Observe the charts.
- Check that the dashboard changes according to the selected values.

E. Find Insights from the Data

1) Which type of content is available more on Netflix: Movies or TV Shows?

Ans:

Content Type: Movies are more available than TV Shows.

2) Which country has the highest number of Netflix titles?

Ans:

Country: The United States has the highest number of titles.

3) Which Rating has the highest number of titles?

Ans:

Rating: TV-MA has the highest number of titles.

4) Which year had the highest number of titles added to Netflix?

Ans:

Year: 2019 had the highest number of titles added.

5) Which Genre has the highest number of titles?

Ans:

Genre: Dramas have the highest number of titles.

6) Which Movie duration range has the highest number of Movies?

Ans:

Movie Duration: 80–100 minutes is the most common range.

7) Write five important observations from your Tableau dashboard.

Ans:

- Movies are more common than TV Shows.
- The United States has the highest number of titles.
- TV-MA is the most common rating.
- 2019 had the highest number of titles added.
- Most movies have a duration of around 80–100 minutes.

8) Write three conclusions about Netflix content based on your analysis.

Ans:

- Netflix has a large variety of movies and TV shows.
- The content comes from many different countries, genres, and ratings.
- Tableau visualizations and filters make it easy to identify patterns and insights from the Netflix dataset.
